

CLOSED TESTING GUIDE

Vocksy

Every mile matters

A quick tour of every feature, role, and flow in the app — read this once and you'll know your way around. Thank you for helping test it before launch.

1. Getting Started

Open app → Enter phone number → Enter OTP code → Choose role: Owner or Garage

No password needed — just your phone number and a one-time code. You can register a garage later even if you start as a Vehicle Owner.

2. Vehicle Owner Features OWNER

Add Vehicle

Registration no., make/model/year, fuel type, vehicle type, current mileage.

Vehicle Dashboard

Quick actions: Log Fuel, Add Service, Add Expense, Insights.

Log Fuel

Odometer + litres + cost. This is what powers all the smart predictions.

Add Service Record

Tap-to-select categories, parts & brand, cost, receipt photos.

Add Expense

Insurance, revenue licence, fines, parking, tolls, and more.

History

Searchable timeline of every service, fuel, and expense record.

Insights

Charts for mileage growth, fuel efficiency, and spending trends.

Predictions

"Oil change due soon" style alerts, plus an upcoming-cost forecast.

Vehicle Tests

Emission test, wheel alignment, and chain service tracking.

Knowledge Hub

Manufacturer specs — compare your own records against them.

Renewal Reminders

Alerts before your Revenue Licence or Emission Test expires.

Export History

Download your full vehicle history as a styled PDF.

3. Sharing, Booking & Selling OWNER

- **Share with a garage** — pick exactly which service records a garage can see before your visit.
- **Book an appointment** — search a garage, pick a date & time slot, message them directly in-app.
- **Sell / Transfer a vehicle** — enter the buyer's phone number, all history moves over once they accept.
- **Family sharing** — give another phone number (e.g. a family member) access to a vehicle.

Select records

Search garage

Confirm share

Garage reviews & submits work

You accept

4. Garage / Service Center Features GARAGE

Register Garage

Name, address, and an optional Business Registration (BR) number.

Schedule

Weekly work days, time slots, and calendar overrides for holidays.

Bookings

Confirm requests, or suggest a different date/time.

Shared Records

See what an owner shared with you before their appointment.

Submit Completed Work

Parts, brand, cost, and category — sent to the owner for approval.

Walk-in Service

Log a job for a vehicle with no prior booking, by registration number.

Customers

Every vehicle you've served, with reminders for overdue ones.

Customer Ledger

Full itemized job history per customer, like a digital service book.

5. Notifications — What Triggers an Alert

EVENT

WHO GETS NOTIFIED

Booking requested / confirmed / cancelled	Owner & Garage
Garage suggests a different time slot	Owner
Garage submits completed service	Owner (needs your approval)
Vehicle transfer sent / accepted	Buyer & Seller
Revenue Licence / Emission Test expiring soon	Owner
Haven't logged fuel in a while	Owner
A service looks due or overdue	Owner
New message in a booking thread	Owner & Garage
Family sharing invite / accepted	Both parties

6. Account & Language EVERYONE

- **Profile** — your photo, activity stats, and current role.
- **Language** — switch between English, Sinhala, and Tamil anytime in Settings.
- **Log out** — signs out this device only.
- **Log out of all devices** — signs out everywhere at once. Use this if your phone is ever lost or stolen.

NEW What's New in This Build

- "Log out of all devices" added to Profile
- Tamil language support added
- Faster, simpler garage search — browse everyone instantly
- Removed a "Verified" garage badge that wasn't working correctly
- Security improvements to login and data protection (not visible, but important)
